EXPERIENCE

Data Scientist and AI Czar · Vista Site Selection May 2024 – Present

- Company AI Czar: led Vista's adoption of AI, trained 3 teammates on APIs, AI tools, and AI-assisted development with a company-wide rollout underway, and built a multi-agent AI system that plans, codes, reviews, and ships work.
- Shipped 330+ merged pull requests across 23 company repositories in 2026, spanning client dashboards, data apps, the core platform, and infrastructure.
- Consulted on 20+ winning applications to Ohio's Transformational Mixed-Use Development (TMUD) tax credit program.
- Replaced Tableau and ArcGIS with in-house web dashboards, a company geo-server, and proprietary map hosting.
- Ran production and staging servers end to end: Linux administration, systemd services, deployments, a branch-based promote-to-production pipeline, and infrastructure-as-code in a single source-of-truth repo.
- Secured client dashboards and internal tools behind Cloudflare Access single sign-on, locked servers to a private Tailscale network, and managed secrets with encrypted, version-controlled config.
- Helped redesign the company website and led its migration from Wix to Cloudflare Pages with CI/CD, scheduled publishing, and bot protection.
- Administered PostgreSQL databases, including roles, access grants, and the data contracts behind client apps.
- Built and automated large-scale data pulls feeding client research across aerospace and defense, retail, and mixed-use development projects.
- Built authentication, admin tools, and Stripe billing for a client-facing segmentation app launching to paying customers, and contributed to Vista's in-house spatial-intelligence platform.

Data Analyst Intern · Vista Site Selection May 2023 – May 2024

- Created 20+ dashboards and geo-visuals giving clients a view of property and industry data.
- Led development of the proprietary Compliance Reporting Tool.
- Scraped, cleaned, and organized 10+ large-scale datasets across client projects.
- Pioneered the company's geo-server and proprietary map hosting service.

Head of Research, Stock Team · Student Managed Investment Fund Jan 2024 – May 2024

- Led research for the stock team of a $1.5M student-managed investment trust spanning ETFs, equities, and commodities.
- Directed evaluation of current holdings and vetted new investment pitches before they went to the fund.

Barback / Busser · Crooked Can Brewing Company May 2023 – Aug 2023

Utility / Food Runner · North High Brewing Company May 2022 – Aug 2022

PROJECTS

Personal AI agent system · Hub-and-spoke Claude Code agents 2026

- Designed a routing hub plus specialist agents for coding, infrastructure, data analysis, research, review, and email, each with scoped tools and guardrails.
- Built in rules for review before merge, read-only lanes, and model fallback, versioned and installed from one repo.

Home media server · Self-hosted Linux box 2026

- Pooled multiple SSDs into one library with mergerfs and run Jellyfin, Audiobookshelf, and automated media management behind a VPN.

Personal website · macsmith21.github.io 2026

- This site: Astro, built with AI-assisted development, deployed by GitHub Actions.

EDUCATION

BS Business Administration · Darla Moore School of Business, University of South Carolina — May 2024

- Finance major, Computer Science minor, Business Analytics concentration. GPA 3.6.
- President's List (2), Dean's List (5), Capstone Scholar.

SKILLS

AI	AI-assisted development, Multi-agent systems, Claude Code, LLM APIs, Prompt and workflow design
Data	Python, SQL, PostgreSQL, DuckDB, R, Web scraping, API integration, Alteryx, Excel / Power Query
Maps and BI	QGIS, ArcGIS Pro, Web mapping, Tableau, Power BI
Infrastructure	Linux, Unix, systemd, Cloudflare (Pages, Access, Workers), Tailscale, CI/CD, GitHub Actions, Secrets management
Web and code	Git / GitHub, JavaScript / TypeScript, Node.js, Next.js, Astro, HTML / CSS, Java, Auth0, Stripe

COMMUNITY

Congregant, Volunteer · Indian Run United Methodist Church — 2002 – Present

- Breakfast service for neighbors in need, Welcome Warehouse, and Toys for Tots drives.
